

We invite you to submit an abstract. All information can be found on our website.

Symposium Themes

- Affinity and bioactivity (including ligand binding analytics)
- Biomedical and diagnostic applications (including biomarkers, biosensors)
- Biopharmaceuticals (bioanalysis and metabolism)
- Drug discovery and development (including MS and imaging in ADME studies)
- Omics and multiple applications (microbiome, metabolomics and proteomics, personalized medicine)
- Microscale analysis and reactions
- Natural product pharmaceuticals
- Pharmaceutical quality control and drug safety (counterfeiting, SFC, chiral applications, environmental fate of drugs)
- Pharmaceutical data processing (multivariate approaches, fingerprinting, chemometrics, QbD)
- Sampling and sample preparation

Important dates

April 1, 2018: Deadline for submission of abstracts for oral communications

May 15, 2018: Deadline for submission of abstracts for posters

June 15, 2018: Deadline for early bird registration

Registration fees

	Early Bird	Regular
Full Academic	500€	650€
Full Industry	700€	800€
Postdoc	400€	500€
Students	250€	350€
Accompanying person	150€	200€

The registration fee includes full access to the DA-PBA Symposium, all symposium materials, coffee breaks and lunches during the symposium and access to the Welcome Reception on Sunday September 9.

DA-PBA 2018

11th International Symposium
on Drug Analysis

29th International Symposium
on Pharmaceutical and
Biomedical Analysis

September 9 - 12, 2018

Leuven, Belgium

www.druganalysis.org

Organized by the Belgian Society
of Pharmaceutical Sciences

Local Organizing Committee

E. ADAMS (KU Leuven)
B. BLANKERT (University of Mons)
A. CECCATO (Catalent)
K. DE BRAEKELEER (ULB)
B. DE SPIEGELEER (University of Ghent)
M. FILLET (ULg)
G. MUCCIOLI (University of Louvain)
F. PROHOROFF-CHARLIER (BSPS)
J. SAEVELS (APB)
A. VAN EECKHAUT (VUB)
A. VAN SCHEPDAEL (chair, KU Leuven)

For all information, please contact:
KU Leuven Conference and Events Office

International Scientific Committee

Chair

J. CROMMEN (ULg, Belgium)

Members

C. BARBAS (CEU University, Spain)
R. BAUER (IPW, Austria)
C. BERTUCCI (University of Bologna, Italy)
R. BISCHOFF (University of Groningen, the Netherlands)
Q. CASS (Federal university of São Carlos, Brazil)
B. CHANKVETADZE (School of Exact and Natural Sciences, Georgia)
A. COVACI (University of Antwerp, Belgium)
P.R. HADDAD (University of Tasmania, Australia)
J. HAGINAKA (Mukogawa Women's University, Japan)
U. HOLZGRABE (University of Wuerzburg, Germany)
Z. JIANG (Jinan University, China)
R. KALISZAN (Medical University of Gdańsk, Poland)
J.-M. KAUFFMANN (ULB, Belgium)
G. MASSOLINI (University of Pavia, Italy)
R. MOADDEL (National Institute on Aging, United States)
V. PICHON (Laboratoire Sciences Analytiques, Bioanalytiques et Miniaturization, France)
S. PINZAUTI (University of Florence, Italy)
G. SOMSEN (Vrije Universiteit Amsterdam, the Netherlands)
Ph. TIMMERMAN (EBF, Belgium)
Y. VANDER HEYDEN (VUB, Belgium)
J.-L. VEUTHEY (University of Geneva, Switzerland)
G. XU (Dalian Institute of Chemical Physics, China)

Confirmed Speakers

V. ANDRISANO (University of Bologna, Italy)
C. BARBAS (CEU University, Spain)
R. BISCHOFF (University of Groningen, the Netherlands)
A. COVACI (University of Antwerp, Belgium)
E. DECONINCK (WIV-ISP, Belgium)
M. FILLET (University of Liège, Belgium)
D. GUILLARME (University of Geneva, Switzerland)
R. KALISZAN (Medical University of Gdańsk, Poland)
J. LECLERCQ (University of Louvain, Belgium)
M. MALET-MARTINO (Paul Sabatier University - Toulouse III, France)
R. MOADDEL (National Institute on Aging, United States)
K. OTSUKA (Kyoto University, Japan)
M. PRZYBYLSKI (Steinbeis Center for Biopolymer Analysis and Biomedical Mass Spectrometry, Germany)
G. SOMSEN (Vrije Universiteit Amsterdam, the Netherlands)
Ph. TIMMERMAN (European Bioanalysis Forum, Belgium)
J.-L. VEUTHEY (University of Geneva, Switzerland)
J.-L. VIOVY (Institut Curie, France)
Y. VANDER HEYDEN (VUB, Belgium)
